

Wanted

Junior Developer internship

Missions

As a **Junior Developer intern** you will join an experienced development team with the expertise to conceive, build and support web applications for large systems and blockchain based software. You are a flexible and motivated personality and contribute to our strong team spirit. You are on a quest for constant learning and you will participate in turning requirements into new fully functional web applications that will be a central part of your job.

Our ambition is nourished by a strong team spirit. In the daily professional life, this translates into simple, well-constructed and well-executed actions.

Roles & Responsibilities

- Participate in the technical design of our projects
- Write efficient and reliable code ; use best practices with our team
- Organize and participate in code reviews
- Setup unit and integration tests
- Keep up to date with the latest technology trends

Your profile

You have a strong interest in new technologies and particularly blockchain technologies. You are not afraid of challenges and you are eager to learn. You know how to prioritize tasks and are able to manage heavy workloads. You are autonomous, have excellent interpersonal skills and demonstrate an entrepreneurial spirit.

Requirements

- You have studied at a renowned IT or engineering school
- Experience with TypeScript and related technologies
- Experience with NodeJS
- Experience with SEO tools
- Experience with web architecture / REST services
- Knowing of Docker
- Knowing of Agile
- Language: French and English
- Experience with client technologies like Bootstrap, React

Cultural Fit

- Flexibility and motivation
- Strong team spirit, transparent communication, and self-management
- Quest for constant learning (new technologies & blockchain)
- A real passion for technology, security

Personal Requirements

- Ability to work for and in a team
- Autonomous worker, able to work independently
- Excellent problem solving and debugging skill

Important:

A training contract (convention de stage) from your school is mandatory for this position.

About Wecan

Wecan is a Swiss based company created in 2015. We co-create, run and scale joint ventures to transform socio-economic paradigms through pioneering blockchain solutions. We address our partner's needs in different industries through our blockchain expertise and our co-creation process.

Our vision

At Wecan, we believe that successful digital technologies are built around people and they are shaped by people's needs. After an era of exponential digitalization growth, the rise of mobile phones dramatically increased the usage of online service... We believe that the next 10 years will increasingly focus on trust, privacy and security. We believe that blockchain and decentralized infrastructure are a much-needed change to the way digital services have been built up to now. And we firmly believe that it is urgent to start putting those tools at the heart of business models right now.

Why join Wecan?

From your first day, you will actively contribute to Blockchain innovative project using by companies with national and global reach. You will be working on projects to reshape businesses, invent new products, and transform some paradigms using the latest technologies.

Could we spark your interest?

We look forward to receiving your application!
