

# Wanted

  

## QA Analyst

At Wecan we build clever B2B applications on blockchain based systems for large customers. In order to support our growth, we are immediately recruiting for a **QA Analyst** based in Geneva.

### Missions

As a **Quality Assurance Analyst**, you are working with our Product Owners, Developers, Business Analysts, and Directors to help us deliver excellent applications. You are responsible to ensure that our products meet the company standards in terms of quality, reliability and usability.

### Roles & Responsibilities

Our ambition is nourished by a strong team spirit. In the daily professional life, this translates into simple, well-constructed and well-executed actions.

- Participate in the design of our projects
- Create and maintain a library of test cases
- Identify product issues and report them in a constructive manner
- Automate the testing process whenever possible

### Your profile

You have a strong interest in new technologies and demonstrate an entrepreneurial spirit. You are able to manage heavy workloads and have excellent interpersonal skills.

- Have experience working in a product delivery team (ideally in QA)
- Contribute in an agile project (Scrum, Kanban)
- Fluent in French and English is a requirement

### Cultural Fit

- Flexibility and motivation
- Strong team spirit, transparent communication, and self-management
- Quest for constant learning (new technologies & blockchain)
- A real passion for technology, security

### Personal Requirements

- Ability to work for and in a team
- Proactive mindset
- Solutions oriented
- Meticulous/thorough
- Excellent problem solving and debugging skill

# About Wecan

Wecan is a Swiss based company created in 2015. We co-create, run and scale joint ventures to transform socio-economic paradigms through pioneering blockchain solutions. We address our partner's needs in different industries through our blockchain competencies and a co-creation process.

## Our vision

At Wecan, we believe that successful digital technologies are built around people and they are shaped by people's needs. After an era of exponential digitalization growth, the rise of mobile phones dramatically increased the usage of online service... We believe that the next ten years will increasingly focus on trust, privacy and security. We believe that blockchain and zero knowledge proof are a much-needed change of the way digital services have been built up to now. And we firmly believe that it is urgent to start putting those features at the heart of business models right now.

## Why join Wecan?

From your first day, you will actively contribute to the blockchain innovative project used by companies with national and global reach. You will be working on projects to reshape businesses, invent new products, and transform some paradigms using the latest technologies.

Could we spark your interest?  
We look forward to receiving your application!
